Next Gen Health & Lifestyle Club

Description of Project:

Next Gen Health & Lifestyle Club

Objective:

Next Gen Health & Lifestyle Club in Parnell, NZ wanted to revamp their open and spacious gym, while providing a modern floor that could keep up with the pace of their cutting-edge gym equipment.

By using a variety of colours from the everroll® Rubber Flooring range meant they could define dedicated training spaces for free weight, stretch, boxing, lunge, PT zone and induction areas.

The result is an energising space with textual interest and plenty of bold pops of colour. Using the solid, brightly coloured range of pre-sealed everroll® Shape, the group fitness space didn't have to sacrifice underfoot resilience and personal comfort for visual appearance.

The hit zone is quite unique; luring you in with the bright green of pre-sealed everroll® Shape Manaus and in place of painted line markings, Next Gen Health took advantage of custom cut numbers and lines, providing a stylish, hard wearing functional area.

Information at a glance:
