Description of Project:

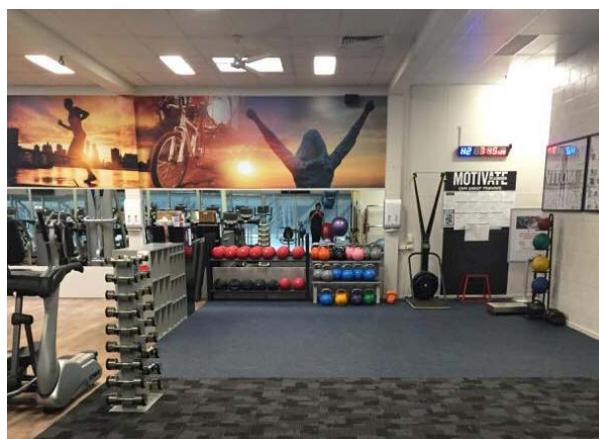

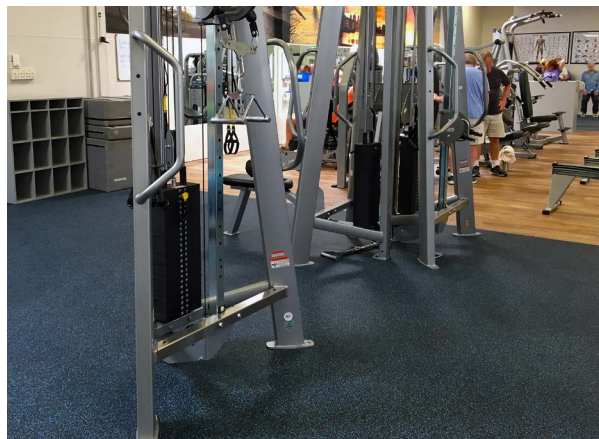

Splashdown Leisure Centre Gymnasium

Objective:

Splashdown Leisure Centre required a state of the art gymnasium with the latest cardio and TRX equipment, which necessitated state of the art rubber gym flooring.

Splashdown provides health and fitness activities with a variety of group exercise classes, a fully equipped gym with a Functional Training zone and aquatic facilities.

The gymnasium incorporates everroll® Core Palau in 8mm thickness; a colour which compliments the aquatic nature of the leisure centre and a thickness which provides impact resistance and safety.
